

SIMPLIFIED SAFETY INSTRUCTION

ECOFOAM ADVANCED

STOCK BREEDING

ECOFOAM ADVANCED is a ultra-high performance alkaline long cling foam cleaner for cleaning surfaces and equipment in the fields of breeding and delivery.

HAZARDS / RISKS

Danger

Substance(s) leading to the classification of the product : 1% <= Sodium hydroxide < 10%, 1% <= Ethylenediamine tetraacetic acid tetrasodium salt < 10%

Hazard statement(s) : H314: Causes severe skin burns and eye damage.

Precautionary statement(s) : P260: Do not breathe mist/vapours/spray. P280: Wear protective gloves/protective clothing/eye protection. P303 + P361 + P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a POISON CENTER or doctor/physician. P501: Dispose of the contents/receptacle at a special or hazardous waste collection point.

PERSONAL PROTECTION

Hand protection : Use chemical resistant gloves approved to EN 374. Examples of preferred materials for insulating gloves: Butyl rubber. Nitril. Neoprene. PVC Do not wear polyvinyl alcohol (PVA) gloves.

Eye/face protection : Use safety glasses or facial screen in conformity with the EN 166 standard.

Respiratory protection : ABEKP2 type filtration. If the ventilation is insufficient, wear an approved mask fitted with a particle filter and adhere to the manufacturer's instructions.

Skin/body protection : Wear boots and a protective cloth with chemical resistance.

Specific hygiene measures : Safety shower and eye wash fountain near to workplace. After using, wash systematically all personal protective equipment. Handle in accordance with good industrial hygiene practices and the safety instructions.

STORAGE

Storage area : Alkali product

CONDITIONS OF USE

Storage : Keep only in the original container. Keep container closed. Keep in a clean and dry place. Keep away from products sensitive to alkalis.

Packaging : Jerrycan, IBC

Dilution Repackaging : In clearly-labelled packaging exclusively reserved for this purpose. After emptying, rinse all tools, recipients and equipment abundantly with water.

Hygiene measures : Wash hands regularly. Respect higienic measures defined on the plant.

FIRST AID

Skin contact : Take off immediately all contaminated clothing. Wash immediately with plenty of water for 15 minutes at least. Immediately call a POISON CENTER or doctor/physician.

Eye contact : Rinse at once with a soft stream of water for at least 15 minutes, eyes wide open. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

Ingestion : Rinse mouth. Do NOT induce vomiting. Send to hospital.

Inhalation : Bring to fresh air. Put into practice respiratory help procedure if needed and get medical advice immediately.

Fire-fighting measures :

Specific risks : At the time of combustion, outburst of pollutant gases.

Recommended extinguishing means : Water, agents compatible with other products involved into fire.

Extinguishing means to be avoided : High pressure water jet

Protective equipments : Wear independent respiratory equipment and protective suit. Collect contaminated firefighting water separately, must not be discharged into the drains. Keep containers cool by spraying with water if exposed to fire.

ENVIRONMENT / WASTE TREATMENT

Accidental release measures :

Small spillage : Absorb on inert material. Dilute the remains with a copious amount of water.

Large spillage : Mark out, soak up with an inert absorbant and pump in an emergency tank. Never return spills in original containers for re-use. Keep in suitable, properly labelled and closed containers for disposal.

Waste treatment : Do not discharge the product directly to sewer or to environment.

Comply with Directive 2008/98/EC of 19/11/2008 amended, relating to waste and to Decision 2000/532/EC (amended ultimately by Decision 2014/955/EC) that establishes a list of hazardous waste that must be taken to an approved centre.
